EDUCATION

University of Central Florida

Bachelor of Science in Computer Science, Minor in Digital Media; Burnett Honors College

Orlando, FL

May 2028

EXPERIENCE

App Development & Infrastructure Intern

BNY

January 2026 – Present

Orlando, FL

- Developed a **React-based visualization interface** for an autonomous anomaly detection and remediation pipeline, **Peggy**, integrating backend observability metrics through **APIs** to support **real-time monitoring** and **sub-minute issue resolution** within a containerized system.

Product Design Intern

Meynde Medical Center

May 2026 – June 2026

Barcelona, Spain

- **Redesigned Meynde's digital presence** for an international, multilingual audience by researching its services, target users, and the Spanish healthcare and aesthetic medicine market, then translating **business and user needs** into UX and information architecture in Figma; **Built and deployed a frontend prototype** from the Figma designs using **React** and **JavaScript**, providing a foundation for future development while working within healthcare data-security restrictions.

Symposium Team Leader & Orientation Ambassador

UCF Burnett Honors College

May 2025 – Dec 2025

Orlando, FL

- Facilitated weekly discussions for **15–20 Honors students** on career development, academic success, and college transition, fostering peer engagement and professional growth; Advised **20+ incoming students** on course selection and academic planning while supporting orientation programming for **200+ students**, contributing to a smooth onboarding experience across Honors initiatives.

LEADERSHIP & EXTRACURRICULARS

Undergraduate Researcher

ReEnvisioning Reality (R²) Lab

January 2026 – Present

Orlando, FL

- Built a **Unity-based city-scale simulation environment** featuring roads, traffic systems, vehicles, and pedestrian agents to support research in **VR-based navigation** and human-agent interaction; Implemented large-scale environment expansion, immersive world design, **HDRI-based rendering workflows**, dynamic weather systems, and roadway infrastructure integration using **EasyRoads3D** to improve simulation fidelity.

Hackathon Organizer & Designer

KnightHacks

March 2025 – Present

Orlando, FL

- Created the visual identity for KnightHacks VIII, including the official **hackathon logo**, workshop presentations, and social media graphics using **Figma** and **Adobe Creative Cloud**; Led decoration planning, direction, and setup for a predicted **1,200+ attendee hackathon**, shaping the physical attendee experience and supporting event planning and operations at BloomKnights, KnightHacks' summer Hackday.

PROJECTS

Evangeline – Best Artistic Direction | Team Project

- Led **level design and gameplay direction** for a Unity RPG with multiple endings, translating the narrative into level layouts, environmental objects, and interactive elements; collected **playtester feedback** to revise level layouts, object interactions, and gameplay flow throughout development.

Kinexis (KnightHacks 2025) – Best App | Team Project

- Developed Kinexis, a fully client-side physical therapy platform using **Flask**, **MediaPipe**, **OpenCV**, and **JavaScript** to track motion via webcam and **auto-generate progress reports 95% faster** than manual documentation.

CappuConnect (STEM Connect 2025) – Best Non-AI Hack | Team Project

- Collaborated in a team of four to design and develop *CappuConnect*, a coffee-chat inspired networking app that facilitates professional networking through swipe-style interactions and tailored event recommendations; created the **UI/UX prototype in Figma** and implemented the frontend using **React.js** and **Tailwind CSS**.

TECHNICAL SKILLS

Languages and Frameworks: C, Java, JavaScript, Python, C++, React, Flask, HTML/CSS, Tailwind CSS

Development: Unity, Godot, OpenCV, MediaPipe, Docker, Node.js, Git, Prometheus, AppDynamics

Design Tools: Figma, Adobe Creative Cloud, UI/UX Design, Canva
